Our services include:

- FAA DERs in mechanical, structural, and electronic systems available for consultation and expertise
- Extensive experience in the FAA STC process as well as new Type Certificate programs
- Recent experience in the emerging field of unmanned aircraft
- Design and manufacturing of unique mechanical, structural, and electronic systems to solve specific customer problems
- Custom printed circuit board design and assembly
- Support for older aircraft, solving issues with aging fleets and difficult-to-find replacement parts
- SFAR 88 compliance

Olympic Aero Services, Inc., can also provide easy access to our sister company, Bravo3 Technical Services, LLC.

- Bravo3 Technical Services, LLC., can provide:
 - DO-160G testing for temperature, humidity, altitude, vibration, shock and crash safety, bench handling, fluid susceptibility, magnetic effect, power input, and electro-static discharge.
 - FAA Certification support of onsite testing services, including DER test witnessing and 8110-3 approval form.

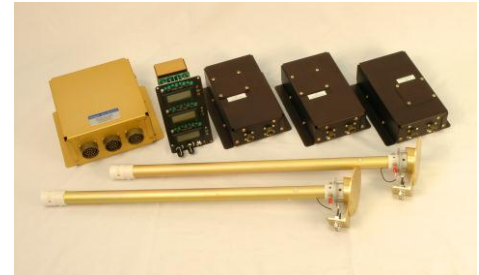

Olympic Aero Services, Inc.

Our products include:

- Fuel Quantity Indicating Systems
 - Main Processor Units
 - Remote Processor Units
 - Fuel Quantity Indicators
 - Fuel Probes

Our customers include:

- GE
- Cessna
- Saab
- Evergreen Helicopters
- Helicopter Transport Services
- Onboard Systems International
- Heli-Trade
- Max Viz
- North Carolina Forest Service
- Boeing
- Aviation Technology Group
- Visual Instruments
- EM Aviation
- PAVCO
- Twin Commander
- Aero Air
- Liberty Aerospace
- MAV6
- Geneva Aviation

- Voltage Regulator Units

- Landing Light Strobe Controllers

- Actuator Test Units and Fixtures

- Custom Avionics Enclosures

- Custom Fittings and Structural Support
